---

**Professional Summary :** Motivated and detail-oriented **Java Full Stack Developer** with a strong foundation in designing, developing, and deploying scalable web applications using **Java, Spring Boot, React, SQL, and RESTful APIs**. Experienced in building responsive user interfaces, developing backend services, and integrating databases to deliver reliable software solutions. Passionate about writing clean, maintainable code, solving real-world problems, and continuously learning modern software development practices. Adept at collaborating in team environments and eager to contribute to innovative technology-driven organizations. short form for resume

---

## Technical Skills

**Programming Languages:** Java (Core Java, Java 8), Python, SQL

**Frontend:** React.js, HTML5, CSS3, JavaScript

**Backend:** Spring Boot, REST APIs

**Database:** MySQL, SQL

**Version Control:** Git, GitHub

**Development Tools:** IntelliJ IDEA, Eclipse, VS Code, Postman

**Concepts:** Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading, MVC Architecture

---

## Education

**Bachelor of Technology (B.Tech.) in Computer Science & Engineering (Artificial Intelligence & Machine Learning)**

Allenhouse Institute of Technology

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Software Engineering, Artificial Intelligence.

---

## Projects

### LiveServer – Local Data Collection Server

- Designed and developed a lightweight local web server capable of accepting user submissions from multiple mobile devices connected through a shared network.
- Implemented backend functionality to receive form data and securely store submitted information in text files.
- Built responsive HTML interfaces for seamless mobile and desktop accessibility.
- Demonstrated understanding of client-server communication, HTTP requests, and backend data processing.
- Utilized JavaScript, HTML, and server-side technologies to manage user interactions efficiently.

---

## Achievements

- Developed multiple academic and personal full-stack web applications using Java and Spring Boot.
- Continuously practice Data Structures and Algorithms to strengthen problem-solving abilities.
- Actively explore modern backend architecture, RESTful services, and scalable application development.

---

## Certifications

- Java Programming
- Spring Boot Development

---

## Soft Skills

Problem Solving • Analytical Thinking • Teamwork • Communication • Time Management
